In particular, the prior art of record fails to disclose the claimed process for packaging a food product comprising in combination the step of advancing a top web to a punching station and punching one product dispensing aperture in the top web; the step of bringing a base web and the top web together in register so that an area of top web defining a lid and having the punched aperture therein overlies a mouth of a filled pot and sealing the lid to the pot to form a food package; nor the step of fixing a sealing member over the aperture, in the claim environment (Figs. 1 and 3).
